Let’s go to much-valued Kada, taking the Medetai Train!
Taking happy feelings and everyone’s smile along,

All aboard!

Kada’s representative seafood, “Tai” (sea bream) has become a train swimming on the railroad.

As well as the exterior, there are abundant elements to cheer you up all over the train!

Once you board the Medetai Train, your journey for Kada, where you can encounter happy and adorable things, will begin.

Admire the scenery! Enjoy the ride!

We’ll show you what the Medetai Train is like.

Nice spots for sightseeing!

1. Awashima Shrine
   Awashima Shrine has long been venerated as the God of women for marriage, recovery from feminine problems and prayers for safe childbirth, etc. Check out Kitshiki's paper fortune (for love) and Gohin (commemorative stamps obtained at a shrine), featuring a tiny doll married couple design!
   (Access) Get off at Kada Station and approx. 20 min on foot.

2. Kada Kasuga Shrine
   The shrine pavilions, featuring a Japanese architectural style known as Monomyina, are neatly reflecting how they were designated as national treasures prior to World War II. Please try one brown-shaped Omikuji (paper fortune) commemorating your visit.
   (Access) Get off at Kada Station and approx. 5 min on foot.

I want to be comforted!

Kada Beach
Blue sea and a beautiful beach with smooth and dry sand. You can also look across to Tomogashima from here. Watching the sunset over the ocean, while listening to the sound of the gentle waves, is also recommended.
